

B. Becky Butler's school work for marking

Ive just started playing cricket with other girls but I am getting exasparated. The rooles of cricket are intrecate and very komplikated. You have to admyre the umpires who take year's to aquire the necesary knowledge. What chance do new players like me have.

A battsman can be boled out, stumped, run out, cawght and be given out because his leg was before the wicket, whatever that entales. The game can last from a day to five days. Then if it raines everyone stops playing, unlike in games of football or rugby where running around chacing a ball in the pooring rain seems to be harf the fun, for boys at least. Im going to take up netball now.

How many mistakes in spelling or grammar did you spot?
