

Mathematics Revision Test 13

1. $(7 \times 8) + 5 =$ _____

2. Decrease 72p by $\frac{1}{8} =$ _____

3. $0.6 + 0.18 + 5.4 =$ _____

4. Using the letters, what are the pair of parallel lines in this trapezium?

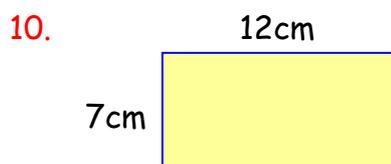

5. $4^2 + 5^2 =$ _____

6. $\frac{9}{10}$ of 2 kg = _____

7. Find the average of these lengths: 5.4cm, 4.6cm and 3.5cm
Answer _____

8. $6 + \frac{7}{10} + \frac{5}{1000}$
Write this as a decimal: _____

9. $\frac{2}{3}$ of £3.60 = _____

Area of the shape above
= _____ cm

11. $\frac{1}{4}$ of 1000 = _____

12. Find the PERIMETER of the shape at question number 10
= _____

13. $\frac{3}{4} = \frac{?}{16}$ Answer _____

Rule: what you do to the top you do to the bottom

14. $(8 \times 6) + 10 =$ _____

15. What are the first 10 Prime Numbers? Start with 2.
= _____

16. $\frac{1}{4}$ of £4.32 = _____

17. $2\frac{1}{4}$ Kg = _____ g

18. Factors of 20
= _____

19. $3^3 =$ _____

20. $\frac{56}{7} =$ _____

Note:

Please start to do any working out on this sheet, as this is what you will have to do in an exam. But please be NEAT!
