The Complete Sutton 11+ Programme – Preview

This preview is designed to show you in some depth the work we'll go through in this course. It covers all elements of the Sutton 11 Plus exam.

Who is this course right for?

- The course is designed to fully prepare pupils for the Sutton 11 Plus exam and should be central to the work of any child preparing at home.
- It is also very useful for any child using a tutor or going to a tuition centre. Many Tutors use our courses as the basis of their work, especially for setting homework. If your tutor doesn't give homework then this course will fill the gap.
- The programme is perfect if your child has 30 40+ weeks to go until the exam. It is delivered in 40 parts. Ideally a week would be spent on each part, however the programme could be completed more intensively in 30 weeks, or in a more relaxed way over longer than 40 weeks.

Why is the course so successful?

- 11 plus tests are weighted towards literacy skills over any other skill area.
- **60% of the marks** focus on literacy skills. Our course is similarly weighted to reflect this.
- The course is fully planned and structured, which makes life much easier for parents than using books alone.
- Revision and tests are gradually introduced so that children build their skills and confidence as they go.
- While the course is regularly updated, the core of it has been used for many years with proven success.
- Our course has been specifically tailored to prepare you for the 11 Plus test in the Sutton area.
- For example, one of the focuses of the Sutton test is on **Technical English Questions**, something which our course provides a lot of practice on. Our course also mirrors the **difficult comprehension texts** that normally appear in the Sutton test.

The Complete Sutton 11+ Programme - Preview

The words from past papers worksheets help to introduce you to new words quickly. Use your personal words list if you are not completely sure of them.

- 1. Reading: Are you enjoying reading every day? There's an old saying - 'Those who read, succeed'. It's you read for at least has Clear Instructions
- 2. every week? Your voc words you are not yet reading or listening.

Every part of The Complete Sutton 11+ Your Personal Words F Programme starts with a front sheet like this. It details every item of work that is in that part and, where relevant, gives guidance on how to approach each item. Full

- Opposites 1 and Opposition answers are provided for every question. 3. from the introduction learning exercises you should come back to this exercise a number of times to ensure learning is properly embedded. Please do not rush this learning activity.
- 4. Opposites Match-Up Test: Only do this simple test a few days after you have learnt these words. Any mistakes or hesitancy will indicate they could be learnt more thoroughly.
- 5. Homographs: Can you think of two meanings for the word badger? Do the exercise to check your understanding of these words. Learn any you didn't get.
- 6. Essential Spelling: More words to learn from the essential spelling bank. Only do the tests when the words have been learnt properly.
- 7. Words from Past Papers: These words have come up in published tests before. Match each word to its sentence. If you are not sure then add the word to your personal words list. This time words include majestic and

fre Organised for you

14.	<u>Similar Words:</u> Some words are co once you complete this work.	verbal and non-verbal reasoning.

- **15.** <u>Collective Nouns</u>: Some of these will be familiar to you already, others you will need to learn.
- 16. <u>Plurals</u> Change y to i and add es: This is the third plural rule.
- 17. <u>Plurals Test:</u> Once you have learnt the plural words for this section do this test to ensure learning has been properly completed.
- **18.** <u>Technical English Questions</u>: This week's 11 Plus style questions contain an introduction to questions on antonyms. The language technique being introduced this week is metaphors.

<u>Maths</u>

19. <u>Working Accurately</u>

- Accuracy table. Second attempt at the first part of this test. See how many you can get right in five minutes. Hopefully if you have made mistakes before, you have done some revision so you will score more highly this time. Please do some core times tables revision if the test is still showing you have weaker areas to focus on.

- **Spot the mistakes**. Are your mistake spotting skills improving? When they do, your own accuracy will also improve.
- 20. <u>Mental Maths Technique Development</u>: More useful mental maths technique thoughts for you to try. Keep trying to use some of the new techniques you have learnt.
- 21. <u>Mental Maths:</u> Try to focus on working accurately, can you get 100% on those you feel you should get the answer to?
- 22. <u>Temperature Graph</u>: A new graph for the next two weeks. Is it getting cooler or warmer?
- 23. <u>Square Numbers & Square Roots:</u> Can you work these out?

p work out how much

Private tutors also use this course a core part of their work with their pupils because it gives a clear structure for both lessons and homework .

Used by Tutors

- Please sign below when you have completed everything.
- Your helper may have to test you on some things.

Signed: (Parent/Teacher and Pupil)

Please do lots of reading throughout this programme. We hope you enjoyed this part of the course.

My Personal Words List

Each week you will find new words or words you haven't quite learnt yet. Familiarisation and a wide vocabulary only develop with frequent exposure. Use this sheet to identify new words, then revise them regularly.

	New word (Write the new word here)	Meaning (Write down its meaning in your own words)	New word in sentence (Write a short sentence with your new word in it)
Child	ren all have a uniq	the heart of everyth we vocabulary and ou ir own vocabulary.

Paired reading 1: The Secret Garden by Frances Hodgson Burnett

CHAPTER IX -THE STRANGEST HOUSE ANY ONE EVER LIVED IN-

The Secret Garden is a classic novel which follows the story of Mary Lennox, an ornban wha movas into her unale?s.mansian . With the help of an enthusiastic Paired reading (reading out loud together while en which she is

both following the text) works magically to improve a child's reading skills and vocabulary It knowledge.

er sees Mary's

imagine. The climbing roses

which were so thick that they were matted together. Mary Lennox knew they were roses because she had seen a great many roses in India. All the ground was covered with grass of a wintry brown and out of it grew clumps of bushes which were surely rosebushes if they were alive. There were numbers of standard roses which had so spread their branches that they were like little trees. There were other trees

in the garden, and one loveliest was that clin tendrils which made each other or at a farmade lovely bridges everything, walls, and

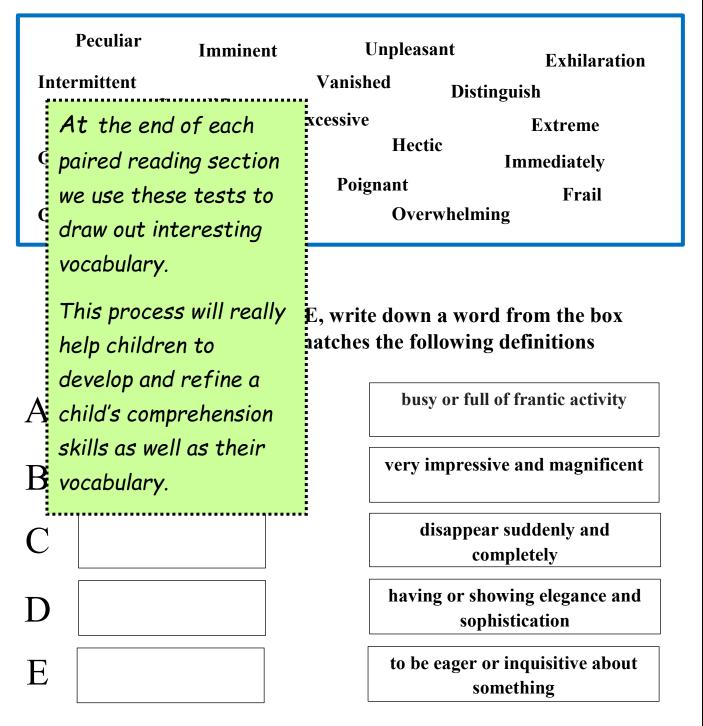

It is especially useful to do this with classic texts where children can be exposed to a segment of a book in the same way they might be with a now and Mary did no comprehension test. Each excerpt should be brown branches and s manageable in around 20 minutes.

their fastenings and run along the ground. It was this hazy tangle from tree to tree which made it all look so mysterious. Mary had thought it must be different from other gardens which had not been left all by themselves so long; and indeed it was different from any other place she had ever seen in her life.

"How still it is!" she whispered. "How still!"

Questions

The following words are all underlined in the text above:

2) For the following five sentences, pick a word from the box above to complete the sentence so that it makes sense

As they had left hours ago, the arrival of her grandparents was -

A. Arthur Lee's school work for marking

When I red about sailors feading choclates to whales I did not beleive it for one minit. It could not possibly be troo, could it. Someone must have invented the storey

for the newpaper's.

Everyone knose that whales only eat plankton and other

see creatures.

On the o	Recognising the mistakes of others is a brilliant way to improve your own accuracy.
	Familiarity with this type of exercise is also important, as the Sutton 11+ test will include similar questions that
particula	require you to spot spelling mistakes.

desperat for custard tarts at brekfast. Strainge isnt

it?

How many mistakes in spelling or grammar did you spot?

Using Colons

- A colon is a punctuation mark that we can use to introduce the items in a list.
- For example: 'To bake a cake you will need: butter, flour, eggs and milk.'
- We use commas to **separate** each **item** in the list. Then we use the connective **'and'** before the last item.
- You will often see colons used in **ingredient** lists and sometimes in **instruction** manuals.

Exercise 1:

The colons in the sentences below have been used in the wrong places. Re-write the sentences and put the colons in the correct place. An example has been given.

- 1. The countries George has been to: include France, Italy, Spain, Ireland and Wales. The countries George has been to include: France, Italy, Spain, Ireland and Wales.
- 2. Sasha's favourite colours are the following blue, orange, red: and yellow.

3. At the green grocers: we bought bread, potatoes, carrots, apples and bananas.

- 4. The boy's hobbies include h
- 5. Tori's favourite animals are

We also work on punctuation and grammar throughout the course as Sutton tests often have a section where children will need to correct mistakes.

Exercise 2:

Write a list using a colon to describe the things below:

1. Your favourite foods

- 2. Your favourite subjects at school
- 3. What you need to make a cup of tea

- These questions test your ability to recognise if a sentence contains the correct punctuation. Choose the correct sentence. You will encounter questions in this style in the 11 Plus exam.
- These questions require a really sharp eye for detail, as something as simple as the placement of a comma can determine whether a sentence is correct or incorrect.
- Be prepared for the different sentences in each question to be designed to confuse you; they will often be similar to each other and only have subtle changes.
- Remember to add any words you do not know or recognise to your personal words list!

1)	Technical English Questions

- E) My twin brothers Joe and Nathan are both twenty-one this year.

Technical English Questions

- These questions test your ability to recognise the meaning of a specific prefix. You are given two words that both contain the same prefix (shown in bold). Choose the correct meaning of each prefix.
- You will encounter questions in this style in the 11 Plus exam.

B)

E)

B)

E)

B) Between

E) With

B) With

- Be prepared for the different options in each question to be designed to confuse you; they will often be similar to each other.
- Therefore, it is really important to focus on each option in every question. If you are unsure of the meaning of the prefix, try to spot any similarity in the meaning between the two example words given, as well as with any other words you can think of with the same prefix. This will give you a clue as to its meaning.
- Remember to add any words you do not know or recognise to your personal words list!

are necessary.

11 PLUS PREPARATION

Technical English Questions

Technical English Questions

Name:
inume.

Today's Date:

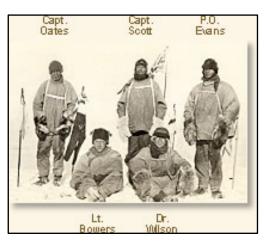

Date of Birth: The practice questions included in each part of the course build up to several timed tests towards the end of the course. These tests mirror the timings and format children will READ THESE encounter in the Sutton 11+ tests. By the end **BE** of the course your child will have completed nearly 600 Technical English Questions and will be in a great place to take on the Sutton 11+.

- You have 10 minutes to complete the paper.
- Each question is worth one mark. If you can't do a question, give it your best guess; try not to leave any questions blank.
- If you finish early then check your answers.
- Once the test has started you may not ask for help.

Edgar Evans was born on March 7th 1876, near Rhossili in Wales. At fifteen he joined the Royal Navy. A few years later, while serving on HMS Majestic, he met a young naval lieutenant, Robert Falcon Scott. It was a fateful meeting.

In 1911, Captain Scott, by now a famous polar explorer, wanted to be the first man to reach the South Pole. The Norwegian, Roald Amundsen, had the

same intention. Scott sailed south with a large team, and after weeks of training and setting up food dumps along the intended route, he selected his team to make the final race to the pole. He chose his four best men - Petty Officer Evans, Lt. Henry Bowers, Capt. Titus Oates, and Dr. Edward Wilson. Scott described Evans as a 'giant worker'. "He is responsible for the equipment - every sledge, every sledge-fitting, the tents, sleeping-bags, harnesses, everything. He is a big man, strong, resourceful and always cheerful so he boosts our morale."

Eleven weeks after setting off from base camp, the five men reached the South Pole on 17 January 1912. They had man-hauled their sledge, with their food, tents and equipment on board, across hundreds of miles of rutted ice and snow. Imagine their despair when they saw the

Norwegian flag planted in the icous frindsen's mental had basten them by finance eks. Disheartened, Scott's te Comprehension became a desperate aff and the wound did not he as well as physically, su descended the Beardmo concussion. His conditid collapsed. He died in th man' who continuously sa

By March, Oates too wa

Sutton English tests always tend to include some comprehension. We build skills by using food supplies gradually a mix of texts including non-fiction texts like this one and the more difficult classic book fiction texts.

k his

companions, walked out into the freezing night never to be seen again. The party was now three and there was no food left. The next food depot was only eleven miles away but the weather was closing in. Trapped in their tent by a ferocious blizzard, with temperatures plummeting, they could make no further progress.

The bodies of Scott and his companions were discovered by a search party on 12 November 1912 and his diary and their records retrieved. Their final camp became their tomb; a high cairn of snow was erected over it, topped by a roughly fashioned cross. In January 1913, before Terra Nova left for home, a large wooden cross was made by the ship's carpenters, inscribed with the names of the lost party and Tennyson's line from his poem Ulysses: "To strive, to seek, to find, and not to yield". It was erected as a permanent memorial on Observation Hill, overlooking Hut Point.

A Plague in the little Norman church at Rhossili reads: "To the Glory of God and in memory of Edgar Evans 1st Class Petty Officer, R.N., and a native of this Parish, who perished on the 17 February 1912, when returning from the South Pole with the Southern Party of the British Antarctic Expedition under the command of Captain Robert Falcon Scott.

THE WONDERFUL WIZARD OF OZ – L. Frank Baum

This extract comes from the novel that the popular film, The Wizard of Oz, was based on. This is a story about Dorothy and her dog Toto, who are carried away in a cyclone and end up in Oz. In your extract, the cyclone has just hit Dorothy's prairie in Kansas.

Dorothy lived in the midst of the great Kansas prairies, with Uncle Henry, who was a farmer, and Aunt Em, who was the farmer's wife. Their house was small, for the lumber to build it had to be carried by wagon many miles. There were four walls, a floor and a roof, which made one room; and this room contained a rusty looking cookstove, a cupboard for the dishes, a table, three or four chairs, and the beds. Uncle Henry and Aunt Em had a big bed in one corner, and Dorothy a little bed

too. They had t

20 When Dorothy, who was an orphan, first came to her, Aunt Em had been so startled by the child's laughter that she would scream and press her hand upon her heart whenever Dorothy's merry voice reached her ears; and she still looked at the little girl with wonder that she could find anything to laugh at.

Uncle Henry never laughed. He worked hard from morning till night and did not know what joy was. 25 He was grey also, from his long beard to his rough boots, and he looked stern and solemn, and rarely spoke.

It was Toto that made Dorothy laugh, and saved her from growing as grey as her other surroundings. Toto was not grey; he was a little black dog, with long silky hair and small black eyes that twinkled merrily on either side of his funny, wee nose. Toto played all day long, and Dorothy played with him, and loved him dearly.

Today, however, they were not playing. Uncle Henry sat upon the doorstep and looked anxiously at the sky, which was even greyer than usual. Dorothy stood in the door with Toto in her arms, and looked at the sky too. Aunt Em was washing the dishes.

From the far north they heard a low wail of the wind, and Uncle Henry and Dorothy could see where 35 the long grass bowed in waves before the coming storm. There now came a sharp whistling in the air from the south, and as they turned their eyes that way they saw ripples in the grass coming from that direction also.

Suddenly Uncle Henry stood up.

Metamorphosis

In the following passage there are some spelling mistakes. On each numbered line there is either one mistake, two mistakes or no mistakes. Each line is divided into groups of words with a letter underneath. If there is a mistake, ring the correct letter(s). If there is no mistake ring X.

In the following sentences, there are either one or two mistakes in punctuation. Rewrite each sentence using the correct punctuation in the space provided.

- 8) The singer's voice was known as one of the country's best; his' dancing was known as the worst.
- 9) Catherine his wife of many years had decided to go and live in Spain.
- 10) Fred was asked to hold-up the picture.

11) My parents' house is in one of the citys nicest areas, said Josh.

Spot the Mistakes - Maths

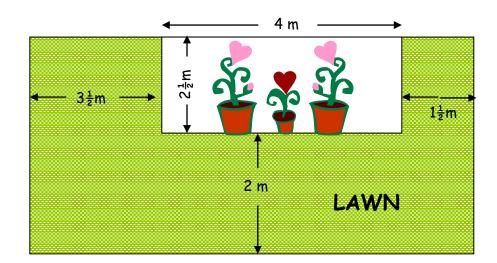

- Victor has completed his Mental Maths task but unfortunately he's made a number of mistakes. His answers are underlined.
- Circle the mistakes. See if you can work out where he might have gone wrong.

Marks

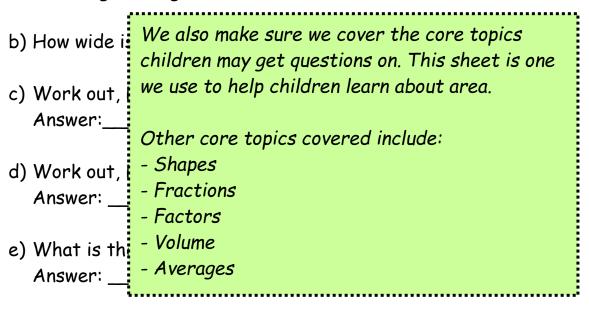

A rectangular garden comprises a rectangular flowerbed surrounded on three of its sides by a lawn.

Answer the following questions which relate to this diagram.

a) How long is the garden?

 f) Find the cost of re-sowing the lawn if grass seed costs £1.86 for each square metre of lawn. Answer: _____

The BODMAS Rule

The rule for the order in which you conduct calculations is: **BODMAS**

This means:

Brackets Orders Division Multiplication Addition Subtraction.

In other words:

1. You must work out the sum in the Bracket first and then complete any Orders (this also means indices, powers, or roots e.g. 3²).

2. Next you must work out any Divison or Multiplication.

3. Finally complete any Addition or Subtraction required.

Remember - if a number appears immediately before a bracket it means you must Multiply (the result of the sum in the bracket) by that figure, so: 5(3.1 + 1.9) means $5 \times (3.1 + 1.9) = 5 \times 5 = 25$

Here is an example of the **BODMAS** rule in action:

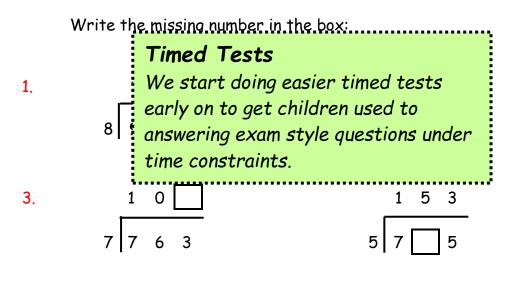

6(1.2 + 6	• • • • • • • • • • • • • • • • • • • •
= 6 x 2	BODMAS
= 12 - 3	This is another example of the focus we place
= 9 🗸	on individual topic knowledge. For some
	children topics will be entirely new, for others
	it will act as useful re-enforcement.
Now look at th	

6(2.36 + 5.62) =	Do the Bracket sum first - 2.36 + 5.62 = 7.98
6 × 7.98 = 47.88 ✓	Then Multiply

Please file this away safely because you will need to refer to it again.

TIMED TEST NUMBER 1

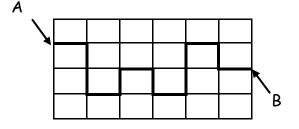

You have 30 minutes to complete this test.

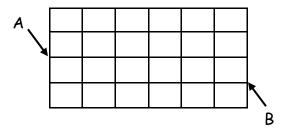

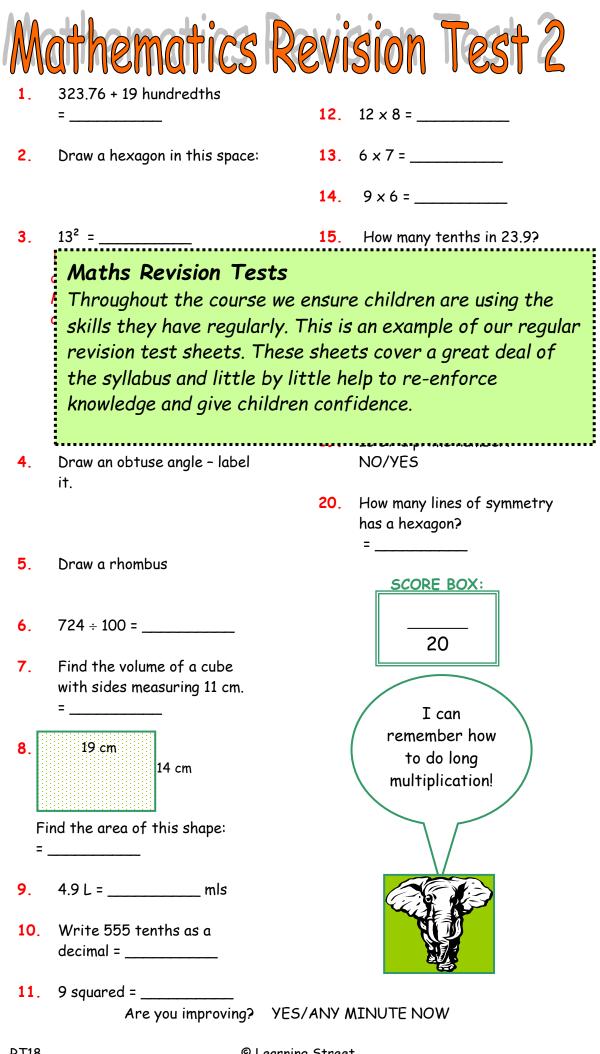

This calculation has the same number missing from each box. What is it?

The thick line from A to B divides the area of this grid into two halves: Divide the area of this grid into two halves.
 Start at A and go along the lines, finishing at B.

5. Complete the following money problems.

a. A single bus fare to work costs £1.25. How much have I spent altogether on bus fares by the time I have returned home?

English Exam - Robinson Crusoe

1) b	5) c 6) a, d and f 7) d 8) b
2) a	6) a, d and f
3) a, b, c, e, g and h	7) d
4) b	8) b

9) Crusoe expects to be on the island for a long time, at least several years, as he keeps a calendar that marks the 'weekly, monthly and yearly reckoning of time'.

1 mark given for a reasonable inference and 1 mark for evidence from the passage to support it. The example answer above uses a quote as evidence - this is a concise way to show how you have used the passage to reach your answer.

10) Crusoe means that he did not find the tools he needed in the shipwreck (1 Mark). As a result, the actions he undertakes in order to build his home on the island (1 Mark) take a lot longer than if he had been able to use tools (1 Mark).

This is a tricky question, which point 4 on the advice sheet refers to. There were 3 marks available, so you needed to cover 3 separate points. 1 mark for explaining each of the following: why he had a 'want of tools'; what he was referring to with 'every work'; what he meant by 'go on heavily'.
